	Name: Miguel		

Activity 1. The numerical square

Test case	Number of solutions	Time for all solutions	Time for first solution
Test00	1	3	3
Test01	2	105	22
Test02	Unknown	Oot	46689

```

-5 + 3 / -2 + -1 = 0
+   -   +   +
-3 * -3 / -1 + 5 = -4
*   -   +   +
1 - -1 * 5 + -4 = 6
+   +   +   +
-1 + -3 + 4 + 3 = 3
=   =   =   =
-9   4   6   3
      Time: 47070

```

It takes a lot for the second test so I cannot determine how many solution it takes for all solutions.
